Results-driven Web Developer with 3+ years of experience in building high-impact web applications and optimizing development workflows. Skilled in a range of technologies, including React.js, TypeScript, Next.js, and others, with a strong focus on creating efficient, scalable, and visually appealing solutions. Committed to applying my technical expertise to deliver high-quality projects and bring business visions to life.

Experience

IBS • **Senior Frontend Developer** • Remote   September 2023 - Present

1) Developed a liquidity module to simplify product comparison by allowing users to easily compare different products offered, helping users make informed decisions more efficiently.

2) Transitioned the entire project to **SCSS modules** by refactoring the project's styling architecture to utilize SCSS modules, providing better organization, maintainability, and scalability.

3) Developed functionality for user registration, including processing registration requests by employees within the admin panel, to improve workflow efficiency and user experience for both employees and users.

Sovcombank • **Frontend Developer** • Remote   February 2021 - September 2023

1) Developed a UI library that simplified project maintenance, improved project consistency, and accelerated the development process for the entire department. Utilized **Rollup**, **TypeScript**, **Sass**, **Storybook**, **webpack**, **Material-UI**, and **Playroom** to create reusable components and streamline frontend development workflows.

2) Implemented testing and configured **Storybook** for designers, testers, and product managers. Simplified their prototyping process and provided a visual representation of component designs with different data sets.

3) Developed over 30 landing pages for the bank, ensuring consistent branding and seamless user experiences. Collaborated closely with designers and stakeholders to bring their vision to life, creating engaging and visually appealing web experiences.

Center • **Frontend Developer** • Remote   September 2020 - February 2021

1) Developed a chat functionality that allowed users to ask private questions to administrators and moderators through video conferences in a project based on the open-source product Jitsi Meet. Implemented the chat feature using **React.js**, **Redux**, and **Websockets** to enable real-time communication and enhance user engagement.

Freelance • **Frontend Developer** • Remote   July 2020 - September 2020

1) Developed and delivered custom web solutions for various clients, including an e-commerce website with an admin panel for a lumber and portable buildings company and a landing page for a painting company. Leveraged technologies such as **React**, **Redux**, **Styled-Components**, **Firebase**, **Next.js**, **nodemailer**, and **Sass** to create engaging and functional web experiences tailored to client needs.

Skills

Technical: JavaScript, TypeScript, React.js, SCSS, HTML/CSS, Next.js, Gatsby.js, SEO, Git, GraphQL, etc.

Languages: English, Russian

Education

Kazan National Research Technical University named after A.N. Tupolev (KNRTU-KAI)
• **BA in Computer Science**
September 2022 - June 2025
